Switch On/Off Rocker Type

Light Source 3 watt LED

Operating Temperatures

Optimal Operating 32°-104°F

Optimal Storage 32°-140°F

Warranty 12 Months

Tested and certified

Before using your Light-A-Life LED light for the first time, please follow these simple steps.

1. Activate your warranty by registering your GOAL ZERO gear at <http://www.goal0.com/warranty>
2. Plug the power cable into the 12 V output port of your GOAL ZERO power pack.
3. Turn the light's rocker switch ON.

Turn on your LAL light for 270 lumens of long-lasting use.

Hint: The Light-A-Life LED light was designed to chain with up to a total of 6 lights. To use the chaining feature simply remove the rubber stopper on top of the light and plug in the power cable of the other Light-A-Life light.

How many hours of light can you get from Light-A-Life? Here's a quick reference guide to help you out.

RUNNING TIMES (IN HOURS)

LIGHTS			
Sherpa 50	16	8.3	5.5
Sherpa 120	40	20	13
Scout 150	50	25	16
Ranger 350	116	58	39

Chain up to 12 Light-A-Life lights.

Hint: Use the accessory car adapter to power your Light-A-Life light from the car.

TURN IT ON

Turn on the light with its easy to access rocker switch.

LET IT HANG

Hang the light anywhere using the push-button adjustable caribiner.

MADE FOR IMPACT

High impact lens protects the LED light from hits and falls while out on the trail.

PLUG-N-PLAY

We've added an additional port to string multiple lights together.

LIGHT IT UP

Rated at a powerful 270 lumens and for over 20,000 hours of use.

BUNDLE IT UP

Velcro strap makes it easy to manage and pack away the cable.

Q- Is the Light-A-Life waterproof?

A-No. The LAL will work fine during a down pour just don't submerge it.

Q- Will the LAL shock me if it gets wet?

A-No.

Q- Can I chain an Estrella with the Light-A-Life LED?

A-Yes. Chain any combination of Estrella and Light-A-Life lights.

Q- What kind of light is in the LAL?

A-The LAL uses a powerful technology called LED (light-emitting diode). The advantage of LED technology is that it's long lasting and powerful.

Q- Is the LED light bulb replaceable?

A-Yes. It uses a 12V LED light so only use official GOAL ZERO LED lights..

Q- Will the LAL only work with ESCAPE power packs?

A-No. The LAL will work with all GOAL ZERO power packs from the DC output port. It can also be used from standard car or boat cigarette lighter outlets with a GOAL ZERO DC male adapter.

Hint: Chain multiple lights together to light up your camp or tent.

ESCAPE POWER PACKS

From day trips to camp outs, this durable power pack provides you with 150 watt-hours of rechargeable power at a great value.

ESCAPE SOLAR PANELS

Just plug into the Scout power pack to charge and capture solar energy everywhere you go with this portable folding solar briefcase.

ESCAPE LED LIGHTS

With the chainable ESCAPE LED lights keep the trail, campsite or tent lit for hours at a time. Chain multiple LAL lights together for even more light.
